Holmes_MacBookAir_Skype_00 0079		5/6/2012 9:14:40 PM	was talking to sani about touch screens. if you recall, back in december and january we paid for 200 12.1" touch screens. we paid $120K for those.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0078		5/6/2012 9:14:49 PM	i know	eah2003	sunnybalwani	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0077		5/6/2012 9:15:06 PM	I dont think we will use more than 20 or 30 of these this year so I am trying to return 170-180 of these if we can.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0076		5/6/2012 9:15:22 PM	because we will only use the smaller ones?	eah2003	sunnybalwani	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0075		5/6/2012 9:15:56 PM	the 20-30 we can use in Monos and or Minlabs that we send out or for cool demos. for all normandy machines, we will use the existing 580 8.4" screens.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0074		5/6/2012 9:16:06 PM	christian also jst came	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0073		5/6/2012 9:16:42 PM	what is your current estimate of when we'll have in hospitls/pediatric hospitals and or in NC, MA, PA etc	eah2003	sunnybalwani	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0072		5/6/2012 9:16:51 PM	once our monos and R&D minilabs are done, we can also take out some touch screens from current Edisons and retre those machines if we dont use them	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0071		5/6/2012 9:17:49 PM	whatever we have in hospitals etc, 8.4" should be sufficient. we will have users use our .MD portal to interface with the system from a PC for now. building software for device will take more resources which we wont be able to devote until Q4 at the soonest.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0098		5/6/2012 9:20:17 PM	i think in May we should focus on perfecting 13 monos and 2-3 minilabs, building SOPs, setup etc and learn and relearn the assembly, make sure blades work PERFECTLY, boards are tested out thouroughly so that once we assemble devices, we never disassemble them to change a board or part. as we build 200 blades, trying to make changes will become extremely expensive and time consuming and will slow us down.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0097		5/6/2012 9:20:35 PM	so, my internal goals for May are 20 Monos and 5 minilabs for R&D only.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	

Record	Type	Message Sent Date/Time	Message	Sender / Author	Recipient(s)	ChatID	Attachments
Holmes_MacBookAir_Skype_00 0096		5/6/2012 9:21:24 PM	For JUNE, I think it will be 10 R&D minilabs, which we can build with existing assembly resources in 1601. dont even need to move these to newark until we have solid quality data and have everyone under 1 roof for a month.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0094		5/6/2012 9:21:45 PM	I meant in June 10 GMP Minilabs.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0095		5/6/2012 9:21:48 PM	starting gmp in july then?	eah2003	sunnybalwani	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0093		5/6/2012 9:21:52 PM	CORRECTION.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0092		5/6/2012 9:21:58 PM	yeah	eah2003	sunnybalwani	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0091		5/6/2012 9:22:17 PM	start GMP towards end of June once we know for sure the blades are solid, the boards are solid.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0090		5/6/2012 9:22:42 PM	by end I mean after 15th. but tell the team to beat and pund the machines from now through June 15th - without saying it explicitly	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0089		5/6/2012 9:23:16 PM	and write few protocols after V0 whose intent is to stress test the machine more than run protocols useful for clinical purpsoeses.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0088		5/6/2012 9:23:39 PM	it probably wont be until July 1 that we hit full force GMP production of Minilabs.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0087		5/6/2012 9:23:59 PM	but, once this work is in place, we will be producing machines with higher confidence.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0086		5/6/2012 9:24:02 PM	how many assemblers do you target for then?	eah2003	sunnybalwani	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0085		5/6/2012 9:24:52 PM	betwen now and June 15, add few more traditional asemblers - all at 1601 - to build 30 monos and 8-10 R&D minilabs. a total of 20 assemblers and assoc. engineers shoulw be sufficient.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0118		5/6/2012 9:25:26 PM	we can then ramp in June to add more assemblers once SOPs are in place AND once we have high confidence in the ML parts, blades, assembly etc.	sunnybalwani	eah2003	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0117		5/6/2012 9:25:56 PM	we killed the 5-bay minilabs to make 6-bay ones so we dont have enough blades for 10 r&d minilabs - we have 8 though	eah2003	sunnybalwani	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0116		5/6/2012 9:26:12 PM	i think	eah2003	sunnybalwani	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0115		5/6/2012 9:26:34 PM	signing off and switching to ipad	eah2003	sunnybalwani	#eah2003/$sunnybalwani;362b 5d295bb58d98	
Holmes_MacBookAir_Skype_00 0114		5/6/2012 9:26:35 PM	be back	eah2003	sunnybalwani	#eah2003/$sunnybalwani;362b 5d295bb58d98
